Part A: Pupil premium strategy plan

Statement of intent

Our strategy will, in line with the school's vision, ensure that our Disadvantaged pupils will leave Ousedale ready to succeed in life. As effective learners, they will acquire the character, experiences, knowledge skills and qualifications that will enable them to thrive, and lead successful, happy lives. The focus of our pupil premium strategy is to support Disadvantaged pupils so that they make good progress and achieve highly across the curriculum, including those who are already high attainers.

This will be achieved through our ambitious and broad curriculum comprising of 3 elements – **Character, Experiences and Knowledge Skills**.

The strategy will be guided by the following key principles:

- Ambition
- Knowledge and Skills
 - Key concepts
 - Core Knowledge
 - Powerful knowledge
- Offering new experiences
- Developing character
- Identifying and addressing context specific need
- Learning is sequential

Our strategy is integral to the wider school developments that will support the continued improvement in attainment of our Disadvantaged pupils whilst sustaining improvements in outcomes of their Non-Disadvantaged peers.

High quality teaching is fundamental to supporting the aims of our strategy that will be supported by accurate and timely diagnostic assessment resulting in targeted interventions. Our approach will be responsive to the needs of the cohort so that emerging challenges are identified and acted upon, ensuring all pupils can access our rich and broad curriculum.

We take pride on knowing our students and therefore provide staff with the opportunity to access Pupil Premium funding to support students in more bespoke ways such as the department bid process.

Our strategy statement is based on a three-year-plan that is reviewed at regular intervals and at least annually.

We have concerns relating to pupil wellbeing which is ongoing since the pandemic. It is clear from internal data that 28% (20% at last year) of our disadvantaged students have accessed support from our school counsellors and other internal data suggests higher use of pastoral support systems.

It is also evident that many pupils and their families are experiencing increasing challenges with SEMH, with the number of students identified with SEMH needs at Ousedale continuing to increase. There has been an increase of 21% compared to last years total SEMH numbers (101 to 127).

4

A higher proportion of parents of our Disadvantaged pupils at KS4 demonstrate **poor parental engagement** with the school compared to parents of our non-disadvantaged pupils. 33.91% of pupil premium parents did not book an appointment for parents evening across last academic year.

There are also a high number of parents who are not accessing Classcharts which gives live data on attendance and behaviour of pupils.

Our Disadvantaged pupils receive a disproportionate amount of **Behaviour and Attitude to Learning** points.

- Pupil Premium account for 24% of all negative behaviour points issued:

Negative Total	24%
Positive Total	15%
Instant Removal	65%
Late	24%
Warning	22%

	Reflection Removal	28% 33%
6	Although the attendance of our Disadvantaged pupils is higher than their national counterparts (89.71% compared to 85.4%), their overall attendance is lower than our Non-Disadvantaged at school. Overall, there was a 4.37% in school difference in attendance between the groups for the academic year 2023/24. There is minimal difference between PP students at our NP campus 89.09% to students at our Olney Campus 89.35%.	

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome – What we want to happen	Success criteria – How we will know it has happened
1. Improved attainment and progress outcomes among our Disadvantaged pupils across the curriculum at the end of KS4.	2024/25 KS4 outcomes demonstrate that Disadvantaged pupils achieve: <ul style="list-style-type: none"> • an average Attainment 8 score of at least National average • at least 45% passing GCSE Basics at grade 5 or above • at least 65% passing GCSE Basics at grade 4 or above • The gap in progress with our disadvantaged pupils and non-disadvantaged pupils nationally diminishes • All students are making progress that is at least in line with their prior attainment • Key focus on HPA attainment due to results last academic year. • The proportion of students in KS3 working at or above progress range to be in line with their non-PP peers. • Students in KS5 are being successful in securing university places, apprenticeships or alternative career starter pathway placements.
2. Literacy and numeracy skills improve for the FSM6 cohort	<ul style="list-style-type: none"> • To ensure there is no gap between PP and non-PP in their reading proficiency levels. • Reduce the gaps between PP and Non-PP for reading fluency. • Our PP cohort in year 7 are on average above their chronological reading age, however they are on average 11 months behind their non-PP peers. A reduction in this gap is what we strive for. • NGRT tests demonstrate improved fluency skills and SAS scores among disadvantaged students and a smaller disparity between the scores of disadvantaged students and their non-disadvantaged peers.
3. Attendance of our Disadvantaged cohort improves	<ul style="list-style-type: none"> • Attendance of our Disadvantaged cohort is in line with the national average for all pupils. • The figure for disadvantaged students is in line with their non-disadvantaged peers.
4. Behaviour points, related to learning, awarded to our Disadvantaged	<ul style="list-style-type: none"> • There is no or negligible difference for; negative behaviour incidents; detention and internal exclusion data; and FTE between PP and non-PP.

students decreases.	
5. Parental engagement increases	<ul style="list-style-type: none"> • The proportion of parents/carers of our Disadvantaged cohort who sign up to the Edulink/Classcharts platform increases and is in line with non-disadvantaged cohort.
6. To ensure smooth transition of PP students between key stages of school	<ul style="list-style-type: none"> • PP students are supported between transition from primary school to year 7. • To ensure students have appropriate guidance for options process and transition into KS4/KS5. Through targeted meetings and communication with parents/carers. • Develop use of CIAG strategy to support students in their next steps • Rates of progression (including NEETs) matches the non-disadvantaged cohort. 0 NEET

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on Disadvantaged pupils over previous years including the 2020 to 2021 academic year.

Academic Outcomes

Attainment 8

Attainment 8	2017	2018	2019	2020	2021	2022	2023	2024
School PP	43.34	38.60	46.12	45.76	41.88	45.00	40.07	34.28
School Non PP	52.53	53.03	54.95	56.02	56.73	53.17	50.58	49.33
National PP	37.00	36.73	36.70	40.20	40.30	40.58	34.91	34.50
National Non PP	49.76	50.14	50.30	53.70	54.70	52.65	50.20	50.00

Attainment 8:

Disadvantaged: Although there has been a drop in this measure, it will continue to be in line with the disadvantaged national average if that remains constant. Attainment in the open element is, on average half a grade higher than the EBacc element. The difference between the top and bottom counting grade in both the EBacc (1.4 grades) and the Open (1.2 grades) elements suggests that there is a need to carefully review the curriculum offer for this cohort with targeted interventions that may reduce their qualification suite in some cases.
