

NATIONAL APPRENTICESHIP WEEK 2024

“SKILLS FOR LIFE”

Years 7, 8 and 9

have had an introduction to apprenticeships booklet and some games to play all of which help students learn a little bit about apprenticeships and some of the possible options available to them in the future!

They will learn more about apprenticeships in Years 10 and 11.

Year 12

have been given self-directed learning guides to support their knowledge and understanding around apprenticeships. The guide encourages learners to explore all the opportunities available to them after Year 13. They may look at the guide now or in a couple of months when thinking about their Post 18 aspirations.

Years 11 and 13

had invitations to a wide variety of webinars throughout the week about apprenticeships in a variety of sectors, led by well known names in each industry. The webinars explained more about each company and the apprenticeship programmes they run and vacancies they have or will soon have..

Year 10

have been invited to watch the BIG ASSEMBLY, which is a series of live, interactive digital broadcasts, with lots of extra recordings they can look at if there is a specific company/field that interests them

We've asked them to think about:

What was the most interesting fact they learned about apprenticeships?

Which employer did they enjoy hearing from most?

Did any of the points discussed about apprenticeships surprise them?

For Everyone including you!

Myth-busting Apprenticeship Assumptions!

Are you curious about apprenticeships but surrounded by myths and misconceptions? Join Apprentice Ambassadors on Friday at 4pm for a live panel Q&A webinar, where they will debunk common myths and provide you with the real tea on apprenticeships..
