

Name: Madison Parry

Age: 17

Year graduated from Ousedale: 2018

What qualifications did you gain at Ousedale?

Maths	4
English Literature	5
English language	4
Physics	5
Chemistry	4
Biology	4
History	3
Spanish	3
BTEC Engineering level 1 and 2	Level 2 Merit

Did you pursue any Further or Higher education? College/Apprenticeship/University/study while working

I pursued an apprenticeship and college whilst still at school. I got accepted to both options but chose my Apprenticeship at FCO Services which I am still currently on until 2021

What was your career aspiration while you were at school, if your career path changed what your mind?

I wanted to have a career in Engineering because of the studies that I was doing at school (BTEC Engineering) which I felt that I did quite well at and enjoyed it quite a lot.

What did you enjoy most about your school life at Ousedale?

I enjoyed the lessons and seeing people that I knew.

Current job title and description of your role?

Technical engineering apprentice

How did you achieve this role?

I achieved this job role by completing my GCSEs and working my way through a selection process. I now study and have recently completed a year at college, now I work full time on the job, helping around the company.

What advice would you give our current students about the world of work?
Try and find a job that you enjoy rather than a job you are 100% good at. You will end up doing better and learning more if you are enjoying what you are doing instead of only doing what you are good at.
